PAST EXPERIENCE

Design Director & Engineer
Brainstorm Chaser
2014 - Sep 2017

I've spent the last 4 years designing and building ideas from concept to prototype to production. I've also become a mentor to others and someone people can depend on to get things done. I consider my personality and willingness to help as being the best asset to my success as an entrepreneur.

Design engineer
B+N industries
2010-2014

Worked with a group of Designers and Project Managers to bring Retail Store Fixture concepts from inception to production. Contributed my Lighting expertise to projects where customers requested LED lit solutions.

EDUCATION

BSME
University of Massachusetts — Lowell
1998 - 2003

FULL-STACK DEVELOPER
Berkeley University
Sep -Dec 2017
